OBd car alarm tracker from Munster GPS

Quick Instructions

Purchase a mobile Phone SIM card (Micro size) and place in the tracker as per the drawing below.

The following steps 1 & 2 are only carried out once when first purchased using 0000 as the default password.

1) Set up tracker administrator by texting it: your number+password+space+1

Example text the tracker **08766691860000 1**

Replace 0876669186 with your own number to make your phone the administrator.

2) SMS mode 700+password

To set up SMS mode text the tracker **7000000**

You can text the tracker anytime for a position report by texting 669+password (**6690000**)

You can also set it up to give automatic reports using the following steps 3 & 4

3) Shock Alarm 712+password

To turn on Shock Alarm text the tracker **7120000**

To turn off Shock Alarm text the tracker **7130000**

When the vehicle moves from its current position it will send a text and a position report.

4) Overspeed alarm 122+password+space+speed

To turn on Overspeed Alarm text the tracker **1220000 XXX**

Replace xxx with kmph eg. 120

When the vehicles speed exceeds XXX kmph it will send a text and a position report.
